NIREN'S PART ONE OPPOSITION MOTION TO THE SEC'S
DEFAULT MOTION, AND MOTION FOR EXECUTION BY FIRING SQUAD

On October 31, 2007, the SEC filed with this Court the most ridiculous pack of lies yet in this case, in the form of a 114 page pile of fraudulent rubbish, the likes of which Niren has never even imagined the SEC was capable of fabricating, in so far as the way the SEC twisted everything around like a serpent. Suffice it to say that not one word in the SEC's 114 page pile of rubbish in its Motion for Default Judgment was true. But of course, this Court will immediately grant that Motion – even if Niren were to prove with 100 U.S. Supreme Court cases and a dozen Affidavits that everything the SEC stated was absurd and untrue. This Court is a kangaroo Court, with a hanging Judge who is dying to convict Niren so badly that he can taste it. All of those stupid articles that this Court read about Niren has from the start of this case caused this Judge to want nothing more than to convict Niren and impose the worst penalty possible. So Niren requests that his death sentence be by firing squad, since that would at least be a dignified way of dying.

This Court is not interested in justice. This Court refuses to allow Niren to appeal this Court's very wrong and highly biased ruling against Niren's and HRR's Motions To Dismiss, and this Court has also refused to allow Niren to file his Motions by email – even though the SEC is allowed to. Real justice in this Court! This Court only considered an SEC perjured Affidavit in its ruling, and didn't even read the other 8 Affidavits or Niren's and HRR's arguments in their Motions and Reply Motions and dozens of cases. This Court thinks it is above the U.S. Supreme Court when it comes to jurisdiction and venue issues, and would not read Niren's Motion For Reconsideration, since it is corrupt.

So what is the sense of Niren filing anything, since no matter what Niren files, this Court will rule against him. (Niren has also mailed this Motion with original signature.)

Niren has no money of his own and will declare bankruptcy against the SEC with Argentine counsel here in Argentina as soon as this Court rushes to default Niren and the SEC tries to collect anything. So any default judgment ordered will be idiotic. And since this Court and the SEC are so corrupt, Niren will never return to the U.S. ever again.

So knock yourself out and impose the death penalty by firing squad on Niren.
